ABOUT ME

6+ years of commercial experience building web and mobile applications: SaaS platforms, reusable UI components, REST API integrations and maintainable architectures, with AI-assisted workflows that keep quality and security high. I use AI-assisted development to move faster while keeping code quality, security and architecture consistent. I care about state management, performance and working closely across frontend and backend teams.

EXPERIENCE

AmeriPharma — Full-Stack Developer

2025 – 2026

Healthcare technology · USA, remote

- Built and scaled Medbox, a cross-platform mobile app (iOS & Android) and web portal for medication tracking and appointment scheduling, using React, React Native and TypeScript.
- Developed secure backend services and REST APIs with Node.js and Express, with role-based authentication and robust error handling.
- Engineered reusable UI component systems and optimised client-side state management, making the app noticeably more responsive and stable.
- Managed end-to-end mobile releases on the Apple App Store and Google Play Console, from CI/CD build configuration to production deployment.
- Partnered with cross-functional teams to deliver HIPAA-compliant, production-ready healthcare features in Agile workflows.

staff.am — Full-Stack Developer

2023 – 2025

HR tech, job marketplace · Yerevan

- Architected and developed RESTful APIs with Node.js and Express.js, connecting scalable backend services with React frontends and relational databases.
- Optimised candidate-facing web performance through code-splitting, lazy loading, component memoisation and efficient data fetching.
- Improved reliability with automated unit and integration tests in Jest and React Testing Library for core user workflows.
- Streamlined local development and deployment by containerising services with Docker and tuning Webpack and Babel builds.
- Expanded the platform to iOS and Android with React Native, reusing core business logic, state management and backend integrations.

Hirebee.ai — Full-Stack Developer

2021 – 2023

Recruitment SaaS · Yerevan

- Architected reusable React.js and Next.js component libraries and shared UI patterns, speeding up frontend delivery across teams.
- Engineered a robust client-side state architecture with Redux Toolkit and Zustand for predictable data flow across complex modules.
- Optimised recruiter dashboard rendering and data handling with memoisation, list virtualisation and dynamic code-splitting, significantly cutting load times.
- Integrated secure REST and GraphQL endpoints and Node.js services to power automated candidate filtering and parsing.
- Kept engineering quality high through rigorous code reviews, automated CI/CD checks and Agile/Scrum planning.

SKILLS

Frontend: React (Expert), JavaScript (ES6+) (Expert), TypeScript (Advanced), Next.js (Advanced), React Router (Expert), Redux Toolkit / Zustand (Expert), TanStack Query (Advanced), Tailwind CSS / MUI / SCSS (Expert)

Backend & APIs: Node.js / Express (Advanced), REST API design (Advanced), Auth (JWT, OAuth) (Advanced), GraphQL (Intermediate), WebSockets / real-time (Intermediate)

Databases: PostgreSQL (Intermediate), MySQL / MariaDB (Intermediate), Prisma / Sequelize (Intermediate)

Mobile: React Native (Advanced), Swift / Kotlin native modules (Intermediate), Offline-first, push, deep linking (Advanced), App Store / Google Play releases (Advanced)

AI: AI coding agents (Advanced), Specification-driven development (Advanced), AI code review & test generation (Advanced), Prompt engineering (Advanced), MCP integrations (Advanced)

Quality, security & DevOps: Jest / React Testing Library (Advanced), Performance optimisation (Expert), Accessibility (WCAG) (Advanced), Frontend security (XSS, CSRF) (Advanced), Docker / CI/CD / GitHub Actions (Intermediate), Sentry monitoring (Intermediate), Git (GitHub, GitLab, Bitbucket) (Expert)

SELECTED PROJECTS

Medbox mobile app · Healthcare · iOS & Android · AmeriPharma apps.apple.com/us/app/medbox-by-ameripharma/id6747973374 · play.google.com/store/apps/developer?id=AmeriPharma · github.com/movsisyan-samvel-sharpant
Cross-platform app that helps patients track medications and book appointments. I build features across the React Native app, integrate it with the Node.js APIs and run App Store and Google Play releases.

Medbox web portal · Healthcare · Web · AmeriPharma medbox.com/ · github.com/movsisyan-samvel-sharpant
Web portal for Medbox patients and staff with secure sign-in, role-based access and the same medication and appointment data as the mobile app.

staff.am · HR tech · Job marketplace staff.am
One of Armenia's largest job platforms. I built REST APIs and React features for job seekers, sped up candidate pages and helped bring the platform to iOS and Android.

staff.am mobile app · HR tech · iOS & Android apps.apple.com/am/app/staff-am/id1248999636 · play.google.com/store/apps/details?id=am.staff.androidapp&hl=hy
Mobile app for staff.am job seekers: search and save jobs, apply and follow application status on the go. Built with React Native on top of the existing staff.am APIs and business logic.

Hirebee.ai · Recruitment SaaS hirebee.ai
Applicant tracking platform for recruiters. I built a shared React and Next.js component library, the state architecture and faster recruiter dashboards with automated candidate filtering.

AutoHunt · Marketplace
Car import and sales platform for a dealer in Gyumri: in-stock marketplace, US auction import from Copart and IAAI, a backend-driven total-cost calculator, customer dashboard with import tracking, corporate quotes, blog and admin panel. Trilingual, built agent-first with AGENTS.md and CLAUDE.md.

Sunny Kids Club · Website + CMS
Public Armenian website and admin panel for a kindergarten, with server-side SEO tags, sitemap, pluggable media storage and JWT auth in httpOnly cookies.

EDUCATION

National Polytechnic University of Armenia · Information Technologies, 2020 – 2023

Shirak Regional State College · Accounting Technology and Computer Networks Maintenance, 2012 – 2016

LANGUAGES

Armenian (Native) · Russian (Upper-intermediate (B2)) · English (Intermediate (B1))
